

## Sanitization & Green Cleaning Programs

ServiceMaster Clean  
Commercial  
Services

*How can ServiceMaster Cleaning Specialists provide a cleaning program that affects your Gross **WITHOUT** affecting your Net?*

### Preparing for flu season

We believe that being proactive is the best approach to protect your company from the reduced productivity and lost revenue that result from sick employees missing work. We can help to develop a preparedness plan for you that can incorporate various elements of sanitization to use when needed to reduce the spread of germs.

### We are "GREEN."

**ServiceMaster Clean Green Cleaning** for carpets, upholstery, tile and grout is as effective as traditional cleaning. It's also the right thing for our customers - and the environment.

#### ServiceMaster Clean **Green-For** cleaning products:

- Reduce environmental impact
- Are odorless and solvent free
- Contain no volatile organic compounds (VOCs), which have been known to aggravate health problems such as asthma
- Less detergent residue to help carpet and fabrics stay cleaner, longer
- Have the approval of leading environmental organizations
