

Upholstery & Office Systems Cleaning

Your carpet and furniture are a major investment. Help protect that investment with ServiceMaster Clean carpet and upholstery cleaning programs.

ServiceMaster Clean
Commercial
Services

With the appropriate care, your upholstered furniture and fabric office systems can provide many years of use.

Did you know that getting your upholstery cleaned could make your furniture look new again? So don't replace your furniture, let our experienced technicians restore the beauty and extend the life of your investments.

Upholstered furniture has a wide range of materials and manufacturing methods than carpet. Our professionally trained technicians can identify the fabric type of each upholstered piece and what upholstery cleaning methods will give your upholstery the best, safest and longest lasting results.

In between upholstery cleanings, be sure your janitorial service is doing everything they should be.

They should be vacuuming your upholstered furniture weekly. Even if your furniture has seen little use, the abrasive action of dirt and dust particles can wear the fibers of your upholstery fabric.

The janitorial team should damp-dust arms and headrest areas with a cleaning solution to prevent body oil accumulation on the upholstery fabric.
